

CARBOGEN AMCIS STRENGTHENS ITS FOCUS WITHIN EARLY-PHASE SERVICES

Smart & Efficient Delivery of Early Phase Services

SPRINT is a dedicated multidisciplinary approach.

Designed to deliver smart, efficient, innovative and compliant solutions with no compromise on safety, based on trusted partnership with our client in early phases.

“ *SPRINT is a commitment to efficiency, flexibility and partnership.* ”

Why SPRINT?

Early development requires highest efficiency.

Early-phase programs demand rapid decision-making, high scientific quality, and pragmatic execution. *SPRINT* enables fast progress while ensuring the right level of scientific rigor, compliance and safety.

Straight to the point: what you need in the early phase, in light of the later phases.

SPRINT provides:

Smart and efficient process and analytical development focussing on early phase requirements

Scientific excellence with longer-term feasibility and lasting success in mind

Proactive and agile collaboration, providing services that are fully tailored to each customers' needs

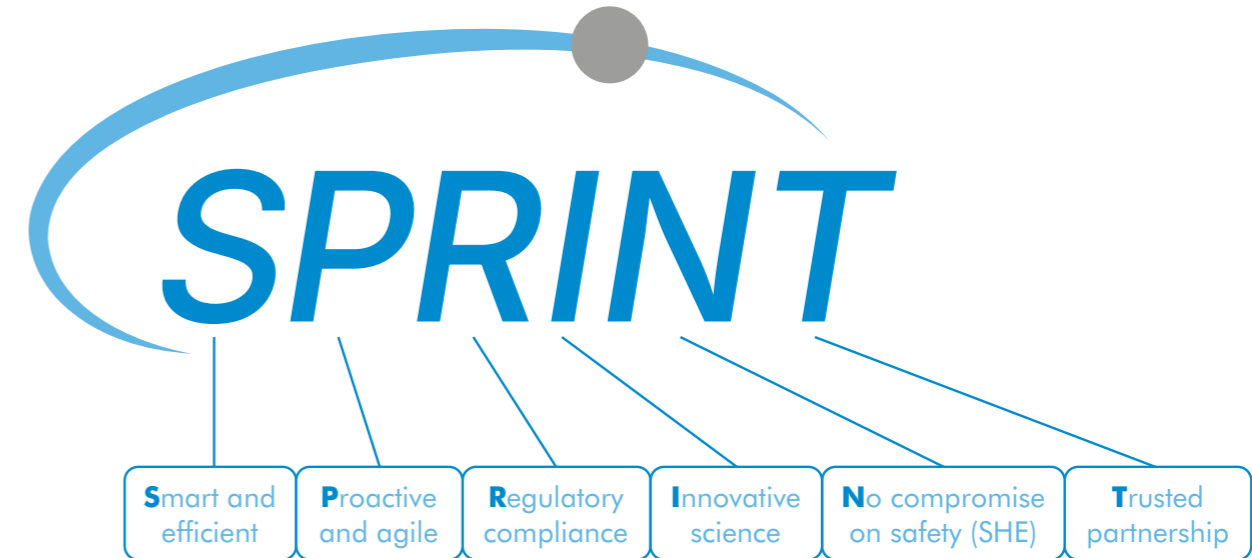

Early phase-appropriate quality oversight and compliance

No compromise on safety (SHE)

Transparent scope definition together with the client, suited for each phase

The *SPRINT* Pillars

(S)mart & efficient

Fast, pragmatic and adaptable execution without unnecessary overhead.

(P)roactive & agile

Attractive timelines and short decision cycles tailored to the requirements of early phases.

(R)egulatory compliance

Compliant with early phase regulatory requirements.

(I)nnovative science

Extensive expertise ensuring optimal early-phase solutions with long-term feasibility.

(N)o compromise on safety (SHE)

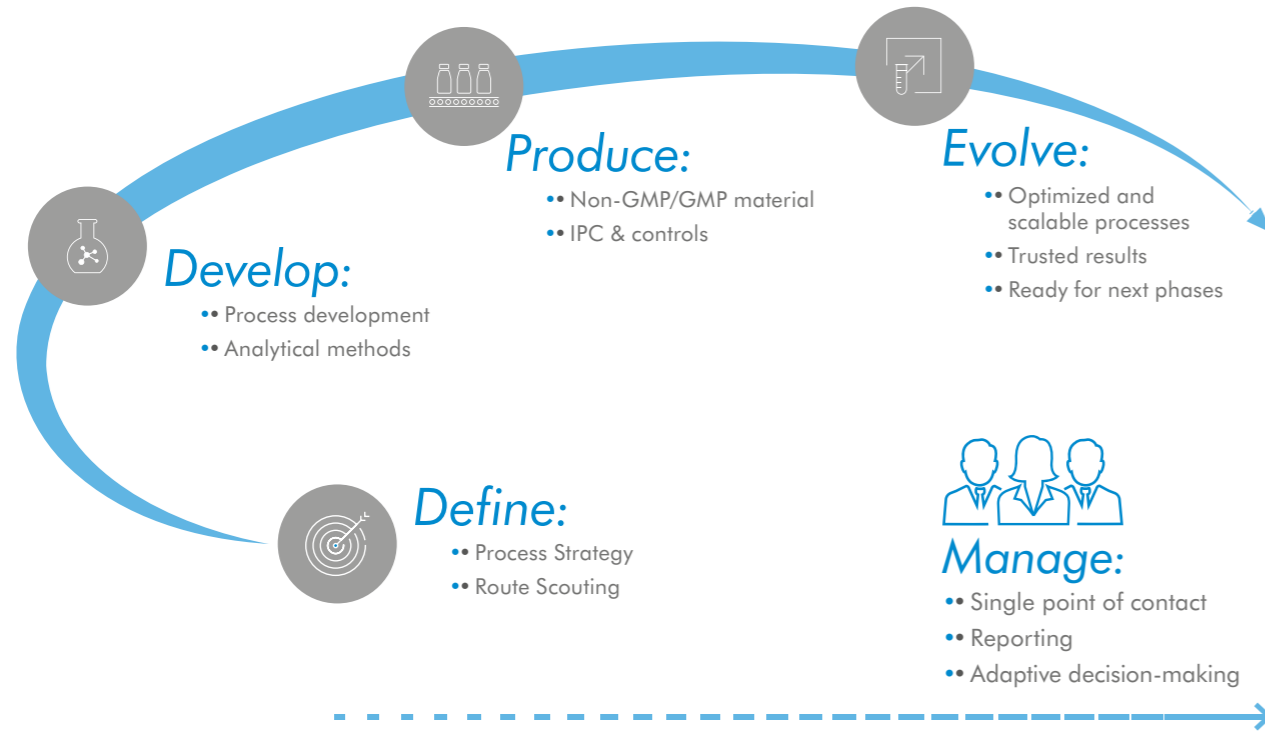

Constant adherence to process safety and protection of employees, environment and assets.

(T)rusted partnership

Collaborative approach built on trust, reliability and a long-term vision with a dedicated team focused on understanding, and anticipating customer needs.
